SC-81B2

TYPE: Rutile

Applications

SC-81B2 can be used for welding of 1.25%Cr-0.5%Mo heat resistant steels used for steam pipes of boilers for electric power plants and marine use, equipment for oil refining industries and high temperature synthetic chemical industries.

Most common usage is in steam power plants and ships, chemical plants and refineries.

Characteristics on Usage

SC-81B2 is a titania type flux cored wire for all position welding. Arc stability is excellent. Spatter loss is low and slag covering is uniform with good removability.

Notes on Usage

- (1) Use 100% CO, gas.
- 2 All position gas shielded flux cored wire.
